# Report of School Board

---

*To the Citizens and Parents in the Town of Alexandria:*

In submitting our annual school report we wish at first to commend teachers, scholars, and parents for the marked improvement in attendance during the past year, which cannot fail to be very gratifying to everyone deeply interested in the ultimate wellfare of our future men and women. No child can afford to miss a day of his school privileges, and we urge parents to give their boys and girls every encouragement. Do not discourage your child by telling him that education doesn't amount to anything, and by keeping him out of school for the slightest cause, but rather encourage the boy and girl by taking a lively interest in their education, visit the school and observe their work, and do all in your power to make the school days of your children bright, memorial ones.

Lack of funds necessitated fewer weeks of school this year, but the town has been very fortunate in securing the services of good, competent teachers so that the scholars attending regularly have, we believe, shown a steady development. But as a town we have not yet reached the stage where we can afford to reduce the apportionment of money for school purposes. Available school money this year was more than two hundred dollars less than the year preceding, and the amount of repair money left over from the year before, far from suffi-

cient. For the current year not only is it desirable to have more weeks of school, but as citizens we owe it to our children to make the *schoolrooms* more attractive and pleasant as well as attending to outside repairs.

For the past two terms the scholars in Dist. No. 1 have attended the school in Dist. No. 2, and those in Dist. 6 have attended the village school. Most of our townspeople are naturally opposed to having the school in their own district closed, but the Board is expected to use its best judgment in the expenditure of the school moneys, bearing always in mind the individual rights of each scholar as well as carefully considering the good of all the schools taken collectively. Conditions in the different school districts change from year to year, and methods must be adopted to meet judiciously these varying aspects. Take for example Dist. No. 7, which was closed for several terms because there were only a few scholars to attend. Since that time several families have moved into the neighborhood, and during the year just closed fourteen scholars have attended that school. Where a school has been closed and the scholars been asked to attend the school in another district, transportation only has been paid where the distance seemed unreasonable to expect a scholar to walk.

In closing we wish to thank our teachers for their efficient work and cooperation, and ask parents and scholars to unite with the school board in its endeavor to make the year 1910 a banner year.

Respectfully submitted,

FRED A. TUCKER,	}	Members of School Board.

# Annual Report of Haynes Library Association

---

We herewith submit our report of the library for 1909, together with the reports of the treasurer and librarian, which set forth in detail all business which has come before them. Some new books have been purchased, but all have not yet been put on the shelves.

Most of the books have been well cared for in a general way; some have had to be taken out and rebound.

On the whole, the past year has been a prosperous one.

Respectfully submitted,

A. F. CHENEY,

Secretary of Trustees.
